

# Genocide Unmasked:

## Naming the Crimes, Seeing the Faces

The word *genocide* did not exist before WWII, but is now recognized as a crime by the international community. Join Dr. J.E. Wolfson, State Coordinator of Education for the Texas Holocaust, Genocide, and Antisemitism Advisory Commission, for a discussion of how genocide came to be conceived and labeled in an effort to criminalize the offense and prevent its recurrence—with a look into how genocides have occurred around the world, what features are evident among them, how survivors have testified to their ordeals, and what challenges genocides still pose.
